The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. PATRICK HARKINS SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

87.3%

of constituents in Rep. Patrick Harkins’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. FLO FABRIZIO SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

87.3%

of constituents in Rep. Flo Fabrizio’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

*The Fair Share Tax Plan:*

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.

of constituents in Rep. Daniel Deasy’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. MIKE TURZAI SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the *Fair Share Tax Plan* would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

83.9%

of constituents in Rep. Mike Turzai’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

of constituents in Rep. Eli Evankovich’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. JOSEPH PETRARCA SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

**REDUCE OR NOT INCREASE STATE INCOME TAXES FOR**

**85.7%**

of constituents in Rep. Joseph Petrarca’s district

of constituents in Rep. Richard Irvin’s district
The Problem
Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

_The Fair Share Tax Plan:_
- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. C. ADAM HARRIS SHOULD SUPPORT THE FAIR SHARE TAX PLAN:
While still raising $2 billion for investments in Pennsylvania communities, the _Fair Share Tax Plan_ would:

<table>
<thead>
<tr>
<th>REDUCE OR NOT INCREASE STATE INCOME TAXES FOR</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>85.9%</strong></td>

of constituents in Rep. Lynda Schlegel Culver’s district
The Problem
Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

*The Fair Share Tax Plan:*
- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. DAVID MILLARD SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the *Fair Share Tax Plan* would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR 87.4% of constituents in Rep. David Millard’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR 85.3%

of constituents in Rep. Steve Samuelson’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:
- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. ROBERT FREEMAN SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

85.3%

of constituents in Rep. Robert Freeman’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. JOE EMRICK SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

85.3%

of constituents in Rep. Joe Emrick’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. MARCIA HAHN SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

85.3%

of constituents in Rep. Marcia Hahn’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

82.1%

of constituents in Rep. Nick Miccarelli’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. JAMES SANTORA SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR 82.1% of constituents in Rep. James Santora’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. MARGO DAVIDSON SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

82.1%

of constituents in Rep. Margo Davidson’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:
- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. ALEXANDER CHARLTON SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

82.1%

of constituents in Rep. Alexander Charlton’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

of constituents in Rep. Rosemary Brown’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. VANESSA LOWERY BROWN SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

90.5%

of constituents in Rep. Vanessa Lowery Brown’s district

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

**WHY REP. SHOULD SUPPORT THE FAIR SHARE TAX PLAN:**

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

**REDUCE OR NOT INCREASE STATE INCOME TAXES FOR**

of constituents in Rep.’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

of constituents in Rep. ’s district
The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:
- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY REP. SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising $2 billion for investments in Pennsylvania communities, the Fair Share Tax Plan would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

of constituents in Rep.’s district
Fair Share Tax Plan District Fact Sheet

The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won’t have the funds for common goods if we don’t ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate $2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.
