

PENNSYLVANIA

Budget and Policy Center

Fair Share Tax Plan District Fact Sheet

SENATOR LAWRENCE FARNESE
SENATE DISTRICT 1

The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won't have the funds for common goods if we don't ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate \$2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY SEN. LAWRENCE FARNESE SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising \$2 billion for investments in Pennsylvania communities, the *Fair Share Tax Plan* would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

90.5%

of constituents in Sen. Lawrence Farnese's district

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won't have the funds for common goods if we don't ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate \$2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY SEN. JOSEPH SCARNATI SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising \$2 billion for investments in Pennsylvania communities, the *Fair Share Tax Plan* would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

85.9%

of constituents in Sen. Joseph Scarnati's district

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate \$2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY SEN. DAN LAUGHLIN SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising \$2 billion for investments in Pennsylvania communities, the *Fair Share Tax Plan* would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

87.3%

of constituents in Sen. Dan Laughlin's district

Fair Share Tax Plan District Fact Sheet

SENATOR MICHELE BROOKS
SENATE DISTRICT 50

The Problem

Pennsylvania needs to fix our broken tax system so we have the resources to invest in education, infrastructure, protecting our environment, and human services.

We won't have the funds for common goods if we don't ask everyone to pay their fair share.

Pennsylvania has an upside-down tax system, where those at the bottom of the income scale pay disproportionately more. Those at the bottom pay 12%, those in the middle pay 10%, but those at the top only pay 4%.

The Solution

The Fair Share Tax Plan:

- Raises the income tax on dividends, capital gains, business profits, estates, royalties, and gambling winnings.
- Cuts the income tax on wages and interest.
- Will generate \$2.3 billion while only raising taxes on less than 20% of Pennsylvanians. 50% of the new revenues will come from the top 1%; 72% from the top 5%; 88% of Pennsylvanians will see their taxes go down or remain unchanged.

WHY SEN. MICHELE BROOKS SHOULD SUPPORT THE FAIR SHARE TAX PLAN:

While still raising \$2 billion for investments in Pennsylvania communities, the *Fair Share Tax Plan* would:

REDUCE OR NOT INCREASE STATE INCOME TAXES FOR

85.9%

of constituents in Sen. Michele Brooks's district
